Guest Speaker

Dr Howard Goldenberg - GP / Author

Howard practiced for many years at Diamond
Creek, and is well known to many of us within
the NEVDGP. Recently he completed a lifelong
ambition to write an account of his father's
role (as a GP for over 60 years) in Howard's
own upbringing and choice of career.

'My Father's Compass' has
been widely applauded
and Howard's personal
account of his father's
trials and tribulations over
half a century of general
practice is an entertaining
and informative story.
