

## Sexual Health, Contraception & PAP Smears Additional resources

27th August 2003

We trust you enjoyed this CPD evening.

As part of the division's ongoing commitment to making available excellent high quality educational programs for GP members, it is our pleasure to be able to provide you with some additional resources that may be of use in helping you manage your patients with sexual health care needs.

We would welcome any feedback you may have on this new initiative.
